

CONFIDENTIAL

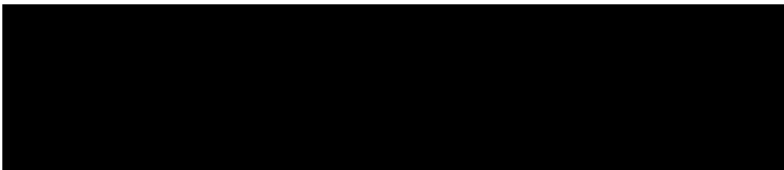

1ST INDORSEMENT

24 June 1946

TO: Chief, Central Planning Staff.
FROM: Information Branch, C.P.S.

1. Forwarded for your consideration.
2. Paragraph 3.b. appears to be somewhat optimistic in its suggestion of "a continuing study by the best brains of the nation." To recover the services of "the best brains of the nation" will be a matter in which the support of the Support Branch appears to be essential.
3. Recommend that the organization of an interim collection-research committee, suggested in paragraph 5 of the basic communication, be authorized for early execution.
